

Private

SuperIntelligence

An AI concierge for enterprises, family offices and private clients, built to the highest privacy and service standards.

4

things everyone
believes about AI.

01 ~~It costs you your privacy~~

02 ~~It makes things up~~

03 ~~It burns the planet~~

04 ~~It forgets by morning~~

None of them are true.

YOURS

Every model you do not own is a room with someone else in it.

A model only works on what it can *reach*.

So we bring the intelligence to the data, not
the data to the intelligence.

One deployment per client.
No telemetry. You hold the keys.

96.1%

fewer hallucinations.

100% of answers cited, every one traceable to the source it came from.

96% OF TASKS CORRECT AGAINST SEVEN COMMERCIAL MEMORY PRODUCTS

NEXT BEST 93% • BASELINE 57%

INDEPENDENT EVALUATION, REVISION OF 3 AUGUST 2026

MITOSISLABS.AI/RESEARCH

Up to
90%
less.

Most of the energy an AI system burns is spent re-reading what it already knows. Cortex retrieves the few passages that matter.

0.4 s

FASTEST MEASURED RESPONSE

It doesn't end when the window *closes*.

A chat session forgets. **Cortex is long running:** it holds an objective across weeks and months, watches what changes, and comes back to you when something has.

Eight

layers of
advantage.

01 Retention & deletion

02 Communication

03 Access & actions

04 Model inference

05 Data storage

06 Deployment

07 Memory, the Cortex graph OURS ALONE

08 Continuity OURS ALONE

A deployment built for *one client*.

THE MACHINE

01

Yours alone

Isolated, air-gappable, and the keys are held by you. No telemetry leaves it.

THE GRAPH

02

Your world, cited

Email, documents, contacts and history as one graph the model can reach.

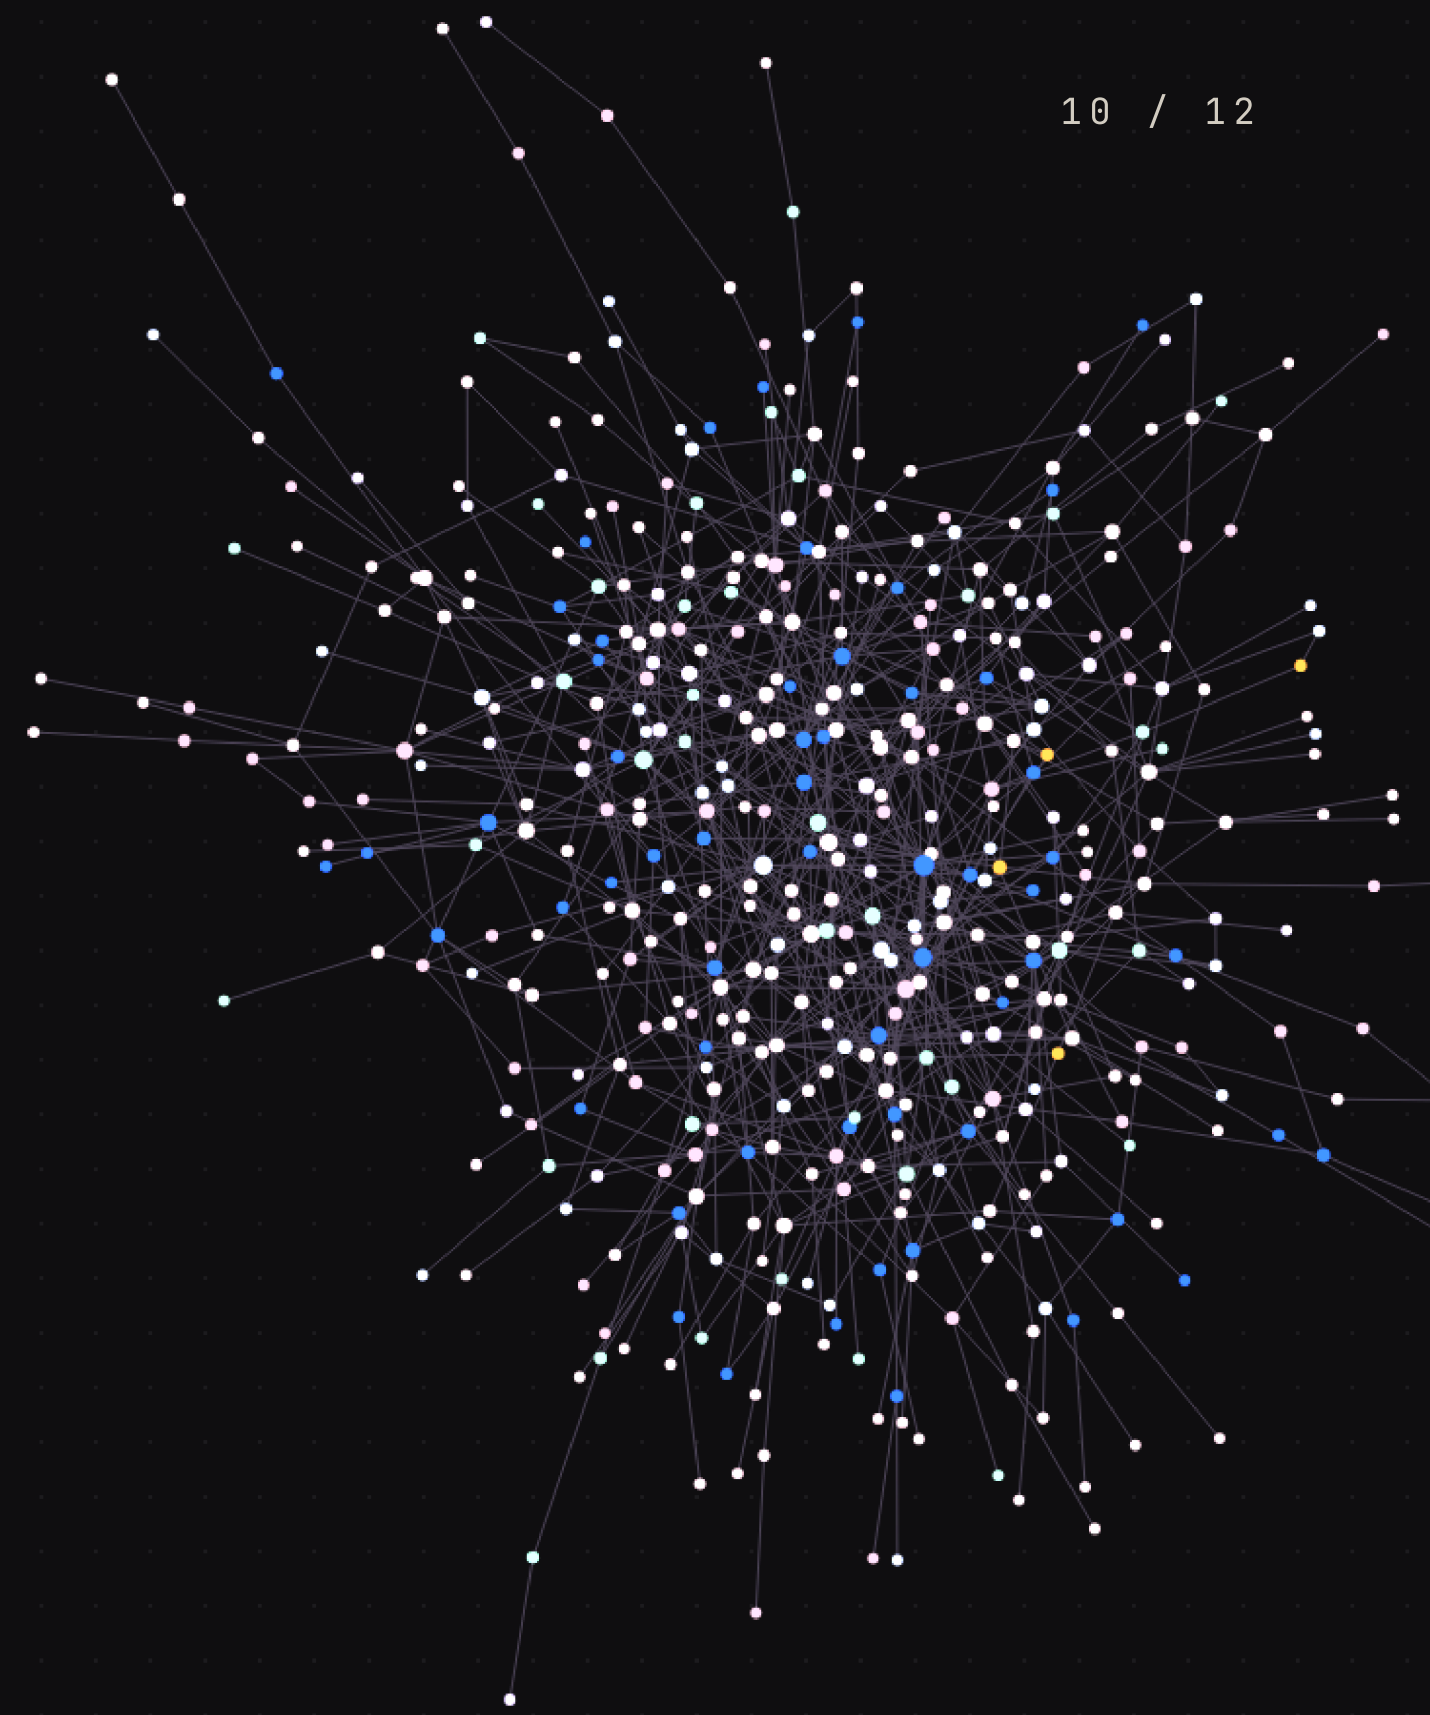

THE AGENT

03

It keeps working

Long running against an objective, reporting only on what actually changed.

Superintelligence
does not have to
be owned by *three
companies.*

The Private SuperIntelligence Network.

Your ideas, your work and your data
remain yours.

Not for *everyone.*

Not everyone is ready for this much power.
We offer it to five family offices, and to no one else.

By 24 October.

Five places. \$10,000 deposit each.

Offered only to families who have held power for generations, and know what it asks of them.

The world is ready for change. *Your family can lead it.*

You have spent generations building what lasts.
We help you put it to work
for the world you will leave behind.
